A ZYF GROUP FACTORY

2024-2025

Factory Whole Scene Smart Ecological Experience Exhibition Hall

Rongdian's full scene smart ecological experience exhibition hall gathers the product resources of the Group's seven factories and thousands of supply chains, including many exhibition areas such as Disney, art home appliances, smart home appliances, smart home appliances, etc., and has many series of boutiques such as Amos Smart Home Appliances, Haoshuai Smart Cloud Education Robot, Rongshida New Guomao, Disney, Gongmei, Huawei HiLink, etc. Every year, more than 30 million smart home appliances, robots, smart home products and other products enter the country's households, leading the sales of many categories in the country.

ZYF-RONGDIAN FACTORY INTRODUCTION

ZYF Holding Group Co., Ltd., founded in 1952, has been shortlisted as one of the top 500 private enterprises in China for many years, and is a comprehensive construction industry group integrating five major industries: urban construction, advanced manufacturing, technology incubation, industrial finance and modern services. Headquartered in Xiangcheng District, Suzhou, the group has more than 4,500 employees, including more than 100 domestic and foreign holding subsidiaries such as ZYF Construction, ZYF LPSK, ZYF Digital, ZYF Real Estate, ZYF Cultural Tourism etc.

Rongdian Factory, a company under ZYF GROUP, a home appliance factory under ZYF LIFE+ branding through its 3+N brand matrix and with the help of 3U smart ecosystem, is a system solution for global household consumer goods and enterprise consumer goods, including 3U Smart Select, Zao Boss, Mercedes, Disney, Gaoligongshan, Qianneng and Tang Yue, forming a systematic brand matrix. ZYF Rongdian operates in seven fields, including smart home appliances, robots, smart homes, high-end agricultural and sideline products, Rongdian University, financial investment, and Internet ecological industrial parks; Having over 13 different factories in different cities in different china regions giving us a super strong supply chain capability; The Yangtze River Delta, the Pearl River Delta, the central region, and the western region will form an industrial cluster with coordinated development.

Since its establishment, Rongdian has successively reached various school enterprise cooperation with many domestic universities such as the University of Science and Technology of China, Renmin University of China, Hefei University of Technology in terms of Technology research and development, talent transfer, achievements transformation, innovation and entrepreneurship, and established a technology laboratory with the Advanced Research Institute of China University of Science and Technology, and a smart technology institute with the Institute of Intelligent Manufacturing Technology of Hegong University. The enterprise has successively won a number of national and provincial honors, such as national high tech enterprise, national e-commerce demonstration enterprise, national e-commerce demonstration base, national manufacturing innovation and entrepreneurship incubation platform, national star world, provincial certified enterprise technology center, Anhui Industrial Design Center, etc.

>> Development history of Our Factory

1993 year

Rongdian Brand was born. Start a brilliant development journey

2007 year

China's first ceramic kettle and the first health kettle

2011 year

Rongdian Company was established, China Feidong Industrial Base was put into use

2020 year

Signed a comprehensive and in-depth cooperation agreement with Huawei Group, jointly enter the field of smart home

2022 year

Signed a comprehensive and in-depth cooperation agreement with Tencent; Rongdian Group (Zhongshan)3U Ecological Industrial Park opened

2024 year

Signed a comprehensive and in-depth cooperation agreement with ZYF; Rongdian 3U Ecological Industrial Park opened

2004 year

Rongdian predecessor; Royalstar small household Appliances company was established; Royalstar air conditioning company was established

2009 year

Rongdian Gift Industry has become the first practical gift brand in China

2018 year

3U Ecological Industry Model has been recognized by the Ministry of Commerce of the People's Republic of China and vigorously promoted to enterprises and parks across the country

2021 year

China Foundation For Human Rights Development - Ecological restoration public welfare foundation

2023 year

Royalstar intelligent air conditioning factory begin production in jiangxi province

Our Factories Overview

National R&D Test Center

We have established research and experimental center in national-level including a smart home IoT laboratory co-built with Huawei, Tencent, and China Telecom, and a national testing center co-built with authoritative testing institutions such as CVC、CTI and CQC, a National noise laboratory and national enthalpy difference laboratory located in the air conditioning factory etc. .

The photos of experimental and testing center showed is located in Zhongshan base.

Electric kettle

Stylish Appearance Design

Modern and simple design, aesthetically pleasing, suitable for various home styles, enhancing the kitchen's taste.

Dual-Bimetal Control by Tianming

Precise Temperature Control: Utilizes Tianming dual-bimetal thermostat to ensure stable heating performance each time.

Safe and Reliable

Effectively prevents overheating, making it safer to use.

Breakfast Machine

Multifunctional Design for Easy Nutritional Breakfast

Preparation: This versatile appliance combines grilling, steaming, baking, and more, making it effortless to prepare toast, eggs, bacon, or hot beverages—all with a single machine. It's your go-to for a healthy breakfast to kickstart your day.

Quick Heating to Save Time: The efficient heating system cooks your meal in just minutes, perfect for busy mornings when you need a delicious breakfast fast.

Compact and Portable, Space-Saving: Designed to be compact, it takes up minimal space, making it ideal for any kitchen setup. It can even be conveniently placed on an office desk for fresh breakfasts anytime.

Safety Features for Peace of Mind: With built-in overheat protection and automatic shut-off, it ensures safe use, allowing you to operate it with confidence even during hectic mornings.

Electric stewpot

Intelligent Temperature Control for Nutrient Retention:

The precise temperature control locks in nutrients during cooking, ensuring every bite is healthy and tasty.

Multi-functional Design: The electric stew pot handles stewing, porridge making, and soup cooking with one-touch ease, meeting various cooking needs.

Ceramic Inner Pot: Made from high-quality ceramic, it's heat-resistant and odor-free, ensuring safe and healthy cooking.

Timed Reservation: Set the timer to enjoy fresh meals anytime, whether for breakfast or dinner, saving you time.

Energy-efficient Design: Low power consumption reduces energy use while maintaining excellent cooking results, making it eco-friendly and cost-effective.

Induction Cooker / Electric Ceramic Stove

The induction cooker uses advanced electromagnetic heating technology to quickly and evenly heat food, significantly enhancing cooking efficiency. Compared to traditional gas stoves or electric burners, it offers higher thermal efficiency and precise temperature control, ensuring every dish is cooked to perfection.

Rapid Heating: High-power induction coils heat food in seconds, saving you cooking time.

Energy-efficient and Eco-friendly: Induction heating maximizes energy use, reducing unnecessary energy waste.

Easy to Clean: The smooth ceramic glass surface resists oil and stains, making it easy to wipe clean.

Blender

Combining blending, grinding, and juicing functions in one, this appliance is an ideal kitchen assistant for every home. Whether you're making healthy juices, creamy smoothies, or grinding spices and coffee beans, it handles it all with ease. The high-power motor and multiple speed settings cater to various ingredient processing needs.

Multi-functional Design: One machine meets multiple needs, reducing kitchen clutter.

Powerful Performance: A high-power motor ensures quick and even processing of ingredients.

Easy Operation: Intuitive button design makes it simple to use, with one-touch functionality.

Easy to Clean: Detachable parts make cleaning straightforward and convenient, saving you time and effort.

Electric Lunch Box

Our electronic lunch box combines modern technology with convenient design, tailored for busy urbanites. Whether at the office, school, or outdoors, you can enjoy fresh, hot meals anytime, anywhere.

Rapid Heating:

The built-in heating system warms your food quickly, ensuring every bite is as fresh as new.

Smart Temperature Control:

Precise temperature regulation prevents food from overheating or cooling down, maintaining the best taste.

Convenient Portability:

Lightweight and easy to carry, making it perfect for travel, office use, and outdoor activities.

Safe Materials:

Made from food-grade materials, it is non-toxic and safe, ensuring the health and safety of every meal.

Coffee Machine

Our seamlessly combines modern design with traditional coffee culture. Its minimalist lines and high-quality materials reflect elegance and sophistication, making it perfect for any home or office setting.

Professional Extraction, Rich Aroma:

Equipped with advanced extraction technology, the coffee machine precisely controls water temperature and pressure, ensuring each cup meets professional standards. Whether it's espresso, cappuccino, or latte, it delivers smooth, aromatic coffee with ease.

Smart Operation, Easy to Use:

Designed to make coffee-making simple and enjoyable, it features an intuitive touchscreen and one-touch smart operation for quick preparation of your favorite coffee drinks. The machine also includes a self-cleaning function for effortless maintenance.

Ice Maker/Smoothie Maker

Advanced Compressor and Cooling Technology:

Equipped with cutting-edge compressor and refrigeration technology, this ice maker ensures rapid ice production. It delivers a stable output of ice whether during peak times or for everyday use.

Energy-efficient and Environmentally Friendly:

Designed with low-energy refrigerants that meet international environmental standards, the ice maker provides strong ice production capabilities while minimizing energy consumption and reducing operating costs.

Durable and Safe:

Constructed from high-quality stainless steel, the machine is resistant to corrosion and wear, suitable for prolonged, heavy-duty use. It uses food-grade materials for ice production, ensuring purity and safety. The ice maker also meets multiple international safety certifications.

Fan/Heater/Air Conditioner

Multiple Wind Speed Options for Diverse Needs:

Featuring 12 adjustable wind speeds, you can tailor the airflow to your preference and room temperature, whether you need a gentle breeze or powerful ventilation.

Quiet Operation for Undisturbed Comfort:

Advanced noise reduction technology ensures that even at night, the fan operates quietly, allowing you to enjoy a peaceful and comfortable environment without disturbance.

Wide-angle Airflow for Better Coverage:

With a 90-degree oscillation design, the fan covers the entire room, ensuring every corner receives refreshing airflow.

Wireless Vacuum Cleaner

High-efficiency Brushless Motor: Provides strong suction power to easily tackle dust and debris on various surfaces, including carpets, hardwood floors, and tiles.

Wireless Design, Freedom and Flexibility: Breaks free from the constraints of traditional corded vacuums, allowing you to move around the house without being limited by power outlets. The lightweight design enhances maneuverability, making cleaning easier and more enjoyable.

Multi-functional Accessories: Includes various attachments that can be easily swapped to meet different cleaning needs. Ideal for reaching high dust, cleaning under furniture, or tidying up your car.

Quiet Operation, Protects Family Health: Features low-noise technology to minimize sound disturbances, ensuring that cleaning does not disrupt your family's rest and daily activities.

Titanium products

ADVANCED TITANIUM TECHNOLOGY

We use top quality titanium to deliver unrivaled durability and superior performance. Known for its superior strength, lightweight properties and superb resistance to corrosion, titanium is the ideal material for high-quality cookware and appliances.

HEALTH & SAFETY

Our titanium products are free of harmful chemicals and are designed to withstand high temperatures without releasing toxins, so you can cook with peace of mind. Titanium liners distribute heat evenly to better preserve the natural flavors and nutrients of your food.

SUSTAINABILITY

Titanium's long lifespan reduces waste, and its resistance to wear and tear ensures that your cookware stays in tip-top shape for years.
